Dear Claude,

This letter is in great haste so please excuse brevity. However just wanted to let you know that I posted a studio picture to you a couple of days ago. I said I wouldn't have one taken in uniform until I got my wings. However I thought would miss out because never had much time. By dint of much persuasion I managed to get them through in time though. Tell mother there is also one posted to her and dad.

Had a very quiet Christmas. There was nothing much to do in the town. On Christmas evening we had an invitation out to sea, and had a very quiet evening. However it was a very welcome change after this camp.

Don't worry if you do not hear from me for a while after this letter. However shall write as soon as possible.

Well must close now as have a lot of jobs to do in a short time. Kind regards to everybody.  
 Yours Reg.
